## [ Why you should attend ]

**JANN FEHLAUER**  
Managing Director  
DEKRA Automobil GmbH

In 2025, we will celebrate two significant anniversaries: the 100th anniversary of DEKRA and the 10th anniversary of the **DEKRA COMMERCIAL VEHICLE OUTLOOK CONFERENCE**.

Since its foundation in 1925 as Deutscher Kraftfahrzeug-Überwachungsverein e.V., DEKRA has been committed to road safety. The main motivation for setting up the organisation at the time was the realisation that the growing fleet of commercially employed motor vehicles needed to undergo technical inspection. Even if our remit as the global partner for a safer and more sustainable world has broadened considerably since then, we still remain true to our commitment to improve the safety and future viability of commercial vehicles.

The fact that the more than 20,000 members of DEKRA e.V. include a significant number of companies from the transport and logistics sector is no coincidence. What drives the industry drives DEKRA. This is why we teamed up with the ETM Publishing Company ten years ago to combine various event formats and launch the DEKRA Commercial Vehicle Outlook Conference.

The conference established itself as a hub for the exchange of information on safety and future viability of commercial vehicles from its inception in 2015. It brings together vehicle manufacturers and suppliers, practitioners in the transport trade as well as experts from the world of politics and business keen to comprehensively discuss current topics driving the industry in all their facets. Up-to-date technical knowledge is key here, yet I see the personal encounters and the direct exchange of ideas as equally important.

That is why we are once again focusing on a face-to-face event in 2025. I would be delighted if you could join us again – as participants as well as exhibitors and sponsors.

See you in Berlin!

## [ Session A1 ]

### COMMERCIAL VEHICLE TECHNOLOGY

[ Climate targets, fleet limits and infrastructure requirements ]

The economy is struggling, the strict CO<sub>2</sub> regulations are increasingly perceived as an additional burden. What is the current state of affairs?

**Moderated by: Julian Hoffmann**, Head of Testing & Technology, EuroTransportMedia Verlags- und Veranstaltungs-GmbH

11:00 - 12:45

#### Lectures and panel discussions

- A1.1 **The future is charging: Charging infrastructure for emission-free road freight transport**  
Johannes Pallasch, Head and Spokesman of the National Centre for Charging Infrastructure, NOW GmbH
- A1.2 **Driving the transition: On the way to climate-neutral road freight transport**  
Thomas Fabian, Chief Commercial Vehicles Officer, European Automobile Manufacturers' Association (ACEA)
- A1.3 **Building the largest public charging network for heavy commercial vehicles: challenges and prospects**  
Anja van Niersen, CEO, Commercial Vehicle Charging Europe B.V (Milence)
- A1.4 **Charging the Future - Charging and charging infrastructure as the key of electrification**  
Alexander Müller, Head of ZEV Business Solutions, Daimler Truck AG
- A1.5 **Battery Swapping instead of charging breaks - a model for the future of heavy commercial vehicles? Results from research, logistics practice and association work put to the reality test.**  
Simon Brück, Head of Environment/Climate and Energy Policy, DSLV Bundesverband Spedition und Logistik e. V.; Wiebke Große, Senior Expert Corporate Development, DHL Group; Philipp Müller, Project Manager & Research Fellow Transport Logistics, Fraunhofer IML

## [ Session B1 ]

### DIGITALIZATION

[ Electrifying telematics ]

How telematics is driving forward more than just e-mobility in road freight transport.

**Moderated by: Prof. Dr.-Ing. Heinz-Leo Dudek**, Vice-Rector and Dean of the Baden-Wuerttemberg Cooperative State University Ravensburg, Faculty of Technology, Steinbeis Transfer Centre Telematics

11:00 - 12:45

#### Lectures and panel discussions

- B1.1 **Telematics data as the key to trust in battery-electric trucks: Lessons learned from DRivE**  
Maximilian Bayerlein, Group Lead Alternative Powertrain Technologies, RWTH Aachen University
- B1.2 **Electrifying telematics - how telematics is driving e-mobility in road freight transport**  
Wolfgang Schmid, Head of Central Region, Webfleet Solutions Sales B.V
- B1.3 **Telematics meets AI: 'Smart Optimised Lorry Parking' - a predictive logistics service for parking space, safety and efficiency in road freight transport**  
Christoph Winkelhage, Senior Management Consultant, BLUE Consult GmbH

## LOGISTICS

[ Sustainable, economical, customer-centred – the challenge of the last mile ]

The last mile is increasingly caught between different customer needs, stricter requirements in terms of climate neutrality and the need for greater cost efficiency. Experts and practitioners discuss viable paths and compromises for optimised delivery.

**Moderated by: Ilona Jüngst**, Editor-in-chief trans aktuell, EuroTransportMedia Verlags- und Veranstaltungs-GmbH

11:00 – 12:45

### Lectures and panel discussions

- The last mile – challenge and opportunity**  
C1.1 Marten Bosselmann, Chairman of the Board, Federal Association of Parcel and Express Logistics (BPEX)
- 
- Last mile in general cargo and system logistics**  
C1.2 Ingo Hodea, Head of General Cargo Networks/System Logistics, DSLV German Freight Forwarding and Logistics Association
- 
- Future-proof on the last mile – the entire range of urban logistics**  
C1.3 Udo Sieverding, Head of the Future Mobility, Cycling and Public Transport Department, Ministry for the Environment, Nature Conservation and Transport of the State of North Rhine-Westphalia
- 
- Customer service, cost efficiency and sustainability on the last mile – how do they fit together**  
C1.4 Prof. Dr. Stephan Seeck, Industrial Engineering degree programme, University of Applied Sciences (HTW) Berlin
- 
- Electrification of the last mile – experiences & challenges Deutsche Post**  
C1.5 Dr. Sebastian Kempf, Head of Fleet Management & GoGreen Post & Parcel Germany DHL
- 
- Discussion:** Marten Bosselmann, Chairman of the Board, Federal Association of Parcel and Express Logistics (BPEX); Ingo Hodea, Head of General Cargo Networks/System Logistics, DSLV German Freight Forwarding and Logistics Association; Udo Sieverding, Head of the Future Mobility, Cycling and Public Transport Department, Ministry for the Environment, Nature Conservation and Transport of the State of North Rhine-Westphalia; Prof. Dr. Stephan Seeck, Industrial Engineering degree programme, University of Applied Sciences (HTW) Berlin; Dr. Sebastian Kempf, Head of Fleet Management & GoGreen Post & Parcel Germany

12:45 – 14:00

### LUNCH AND EXHIBITION VISIT

14:00 – 14:25

### KEYNOTE: DIGITAL. CONNECTED. EFFICIENT. – THE ECOSYSTEM AS AN INNOVATION PLATFORM. THE FUTURE OF CONNECTED FLEET AND WORKSHOP MANAGEMENT

Mithra Kaiser, Director Fleet Management Sales, Knorr-Bremse Systeme für Nutzfahrzeuge GmbH

## COMMERCIAL VEHICLE TECHNOLOGY

[ Electromobility in the transport and logistics industry]

The ramp up of charging infrastructure is in full swing. Important heavy-duty electric trucks are already in series production. What are the experiences so far and what are the plans for the future?

**Moderated by: Markus Bauer**, Editor-in-chief FERNFAHRER and WERKSTATT aktuell, EuroTransportMedia Verlags- und Veranstaltungs-GmbH

14:25 – 15:55

### Lectures and panel discussions

- Zero compromise, Full Performance – ZEV from IVECO for every application from 2.8 tonnes upwards**  
A2.1 Mario Männlein, Head of Alternative Propulsions, IVECO Deutschland AG
- 
- E-mobility in heavy-duty transport: Experiences, challenges, and perspectives**  
A2.2 Dr. Rainer Müller-Finkeldei, Head of Mercedes-Benz Trucks Product Engineering, Daimler Truck AG
- 
- Electromobility for heavy MAN commercial vehicles**  
A2.3 Nils Heine, VP Go-to-Market & Alternative Drives, MAN Truck & Bus SE
- 
- From vision to reality: emission-free vehicle logistics – experiences and further plan**  
A2.4 Dr. Egon Christ, Head of Corporate Strategy, MOSOLF Group
- 
- Advancing Heavy-Duty Truck Electrification: The Status Quo of Battery Swapping Technology in China**  
A2.5 Dr. Jianhan He, Key Account Manager, Contemporary Amperex Technology Co., Limited

[ Session B2 ]

## DIGITALIZATION

### [ The last shall be first ]

Trailers don't just transport goods. How the digital information helps in practice.

**Moderated by: Stephan Feitzelmayer**, Managing Director, SFTelematik

14:25 – 15:55

#### Lectures and panel discussions

- 
- B2.1 **Why We Must Rethink the Trailer – and What Will Never Be the Same Again**  
Maximilian Birle, Head of Telematics & Digital Services,  
Fahrzeugwerk Bernard Krone GmbH & Co. KG
- 
- B2.2 **Trailers move dreams, secure productions and the supply**  
Jens Zeller, Managing Director, idem telematics GmbH
- 
- B2.3 **Leveraging data driven trailer diagnostics**  
Marnix Lannoije, Head of Research & Development (CTO), Schmitz Cargobull AG

[ Session C2 ]

## LOGISTICS

### [ Zero emissions on the last mile ]

New vehicle concepts and sustainable fuels, AI-based route planning and new delivery concepts are making the last mile more sustainable.

**Moderated by: Franziska Nieß**, Editor,  
EuroTransportMedia Verlags- und Veranstaltungs-GmbH

14:25 – 15:55

#### Lectures and panel discussions

- 
- C2.1 **Emission-free last mile: More than just hot air after all**  
Prof. Dr. Sebastian Stütz, Westphalian University of Applied Sciences
- 
- C2.2 **Emission free urban logistics – needs and expectations of the German capital Berlin**  
Nico Keinath, Group Commercial Transport and Long-Distance Transport, Berlin Senate  
Department for Mobility, Transport, Climate Protection and Environment
- 
- C2.3 **DACHSER Emission-Free Delivery: Sustainable city logistics**  
Dr. Hella Abidi, Corporate Business Development Manager Solutions, Dachser SE
- 
- C2.4 **Shaping the Future of Urban Delivery: Public Funding, Economic Efficiency,  
and Regulatory Conditions for the Last Mile**  
Dr. Christian Milan, Founder and Managing Director, M3E GmbH
- 
- C2.5 **Fresh, punctual, sustainable – why the last mile is the biggest challenge in food logistics**  
Max Klostermann, Venture CEO, LEAFR GmbH

15:55 – 16:25

#### NETWORKING BREAK AND EXHIBITION VISIT

[ Session A3 ]

## COMMERCIAL VEHICLE TECHNOLOGY

### [ Safety and Automation ]

With the new Euro NCAP safer trucks program, the safety of trucks is moving into the public eye. And autonomous vehicles also contribute to road safety.

**Moderated by: Julian Hoffmann**, Head of Testing & Technology,  
EuroTransportMedia Verlags- und Veranstaltungs-GmbH

16:25 – 17:55

#### Lectures and panel discussions

- 
- A3.1 **Euro NCAP HGV Ratings – towards a safer fleet**
